Linda Schönfeldt

UX-minded Frontend Developer

Frontend developer with a background in Interaction Design. I build component-based interfaces in React and TypeScript, with a focus on accessibility, design systems and the details that make a product easy to use. Used to working closely with UX, product and other developers in agile teams, and happiest where code and user experience meet.

Education

Web Development, JavaScript & React

Technigo · January – October 2025

JavaScript, TypeScript, React, Node.js and accessibility in an intensive bootcamp format

BSc, Computer and Systems Sciences

Specialization in Interaction Design · Stockholm University · 2021 – 2024

User-centered design, UX research and product development. Bachelor's thesis on dark patterns in social media interfaces.

Skills

Frontend: JavaScript (ES6+), TypeScript, React, Next.js, HTML, CSS
Styling & design systems: Chakra UI, Tailwind CSS, Styled Components, Framer Motion
UX & design: Figma, prototyping, user interviews, usability testing
Backend & data: Node.js, Express, REST APIs, Supabase, MongoDB
Tools: Git, GitHub, Vite, Netlify
Accessibility: WCAG, semantic HTML
AI Tools: GitHub Copilot/Claude Code for code generation, ChatGPT/Claude for research and documentation
Languages: Swedish (native), English (fluent)

Professional Experience

Frontend Developer, freelance

Billig Bokföring · November – December 2025

- Built a responsive website from scratch in React, TypeScript and Chakra UI for an accounting firm serving Swedish small businesses
- Developed an order form with React Hook Form, real-time price calculation and automatic discount logic
- Worked with SEO and deployed the site via Netlify

Frontend Developer, internship

FIXMEAPP · remote · September – October 2025

- Implemented and refined reusable UI components in React, Next.js and Tailwind CSS
- Worked iteratively with continuous feedback to improve user experience and code quality
- Contributed to a more consistent and maintainable frontend in an early-stage startup

UX/UI Designer, internship

Univid · Stockholm · November 2023 – May 2024

- Worked closely with developers to design solutions ready for frontend implementation
- Created user-centered prototypes for a B2B webinar platform
- Planned and ran user interviews and usability tests to inform product decisions

Projects

Paired

React, TypeScript, Supabase, Tailwind CSS

- Shared app for couples and close friends with shared spaces, lists and calendars
- Authentication, member invites via link and row-level access control in Supabase

Lowering the Threshold to Psychological Care

Self-initiated UX concept · Figma, prototyping, UX writing · February 2026

- Conceptual redesign of Din Psykolog's onboarding, built on recognition before choice, guided matching and delayed commitment
- Moved strong authentication to just before booking, separating identity verification from exploration to lower early friction

Additional Experience

Gardener

Olssons Trädgårdstjänst · June – July 2026

Outdoor maintenance for housing associations, including pruning, weeding and general plant care. Physically demanding work with heavy lifting.

Volunteer

Mind · October 2023 – October 2024

Support chat for young people, focused on mental health, empathy, active listening and support.
